

## Buying low risk plants: My low risk plant shopping list

Gardening Responsibly takes the hard work out of buying low risk plants. Once you've checked your plant choices are low risk on our website, you're ready to find a Member Supplier near you in our 'Find a Supplier' list and go shopping!

**My Member Suppliers to visit are:**

---

---

---

---

---

---

---

Once in-store, look for the Certified Gardening Responsibly eco-label on the plant or signage. Our eco-label is based on the best available science so that you can trust that your plant won't jump the garden fence and cause harm to our environment.

By buying plants with the Certified Gardening Responsibly eco-label, you can be confident you're doing your bit to secure beautiful gardens and healthy Australian landscapes.
